Zine Vol.1 24.5.2026

WET ANUS SEKTA IS LOOKING TO BUILD A BETTER WORLD, YOU SHOULD BE WITH US IF YOU CONSIDER YOURSELF AN INHABITANT OF THIS PLANET. GRAFFITI IS ONLY A SMALL PART OF THE REVOLUTION. THEIR INFRASTRUCTURE SHOULD ALSO BE DESTROYED, AND AFTER BEING DEMOLISHED IT SHOULD BE GRAFFITIED AGAIN OVER IT.

GRAFFITI IN GENERAL IS AN INDUSTRIAL CONCEPT IN THE WAY WE USE IT TODAY.

OUR END GOAL IS COMPLETE AND TOTAL DESTRUCTION OF ALL INDUSTRY AND FORMS OF GOVERNMENTS. BUT UNTIL THEN, PAINTING AROUND ON THEIR SOULLESS CONCRETE SEEMS LIKE AN EFFECTIVE WAY OF VOICING OUR DISCONTENT.

GRAFFITI HAS ALWAYS BEEN A COMPETITIVE SPORT IN MAJORITY. WE BELIEVE THAT WE SHOULD UNITE AS VANDALS/ARTISTS TO SPRAY MORE THAN THEY CAN BUFF TO DRAIN THEIR FINANCIALS. THE PEOPLE IN POWER ARE VERY STRICT ON GRAFFITI AND REMOVE IT AS SOON AS POSSIBLE. THIS, JUST LIKE PROTESTS THAT HIT THE NERVES OF THOSE WHO CLAIM POWER ARE A GOOD SIGN FOR US THE PEOPLE, BECAUSE IT MEANS ITS BOTHERING THEM.

THIS IS DRAINING THEIR FINANCIAL RESOURCES AND KEEPING THEM BUSY WITH BULLSHIT.

THE PAINT WE PUT ON WALLS NOT ONLY HURTS THE STATE, IT MAKES CITIES MORE COLORFUL AND FULL OF LIFE FOR THE PEOPLE THAT ACTUALLY INHABIT THE CITIES, THE WORKERS AND HUSTLERS

A BETTER WORLD IS POSSIBLE, BUT WE MUST UNITE. BECAUSE TOGETHER WE ARE STRONGER.

START PREPARING TO LEAVE SOCIAL MEDIA, QUIT WATCHING 'REELS' THOSE ARE MAIN FORMS OF PSYCHOLOGICALLY MAKING US DUMBER AND LESS FOCUSED OVER TIME.

PICK UP A HOBBY OR MULTIPLE HOBBIES. WE AT WET ANUS CORPORATION/SECT RECOMMEND THE FOLLOWING FOR BEST RESULTS OF DOWNFALL OF CAPITALISM: SHOPLIFTING, GRAFFITI (YOU CAN COMBINE BOTH) WOODWORK, METALWORK, ARTS AND CRAFTS, MUSIC. THESE ARE ALL IMPORTANT CULTURAL PROSPECTS AND THE ELITES AND THEIR CIVIL BODYGUARDS OF THE RIGHT WING WORKERS HATE THEM AND DONT UNDERSTAND THEM, BECAUSE THEY ARE NOT LIKE US. THEY ARE CORRUPTED SOULS.

WE LIVE IN A CAPITALIST SOCIETY THAT THRIVES ON OVER-PRODUCTION, SCAMMING, BACKSTABBING AND KEEPING US AGAINST EACH OTHER, MONITIZING YOUR HOBBIES, SELLING YOUR PERSONAL DIGITAL DATA. MAKING YOU DRESS, STYLE YOUR HAIR, WATCH THE MOVIES THAT OTHERS ARE WATCHING AND CONFORM THROUGH A 'COLLECTIVE-PSYCHOSIS' WHICH IS MAINLY CAUSED

BY THE DISFUNCTIONAL MODERN SCHOOLING SYSTEM FROM THE 19TH CENTURY DESIGNED TO CREATE FACTORY WORKERS.

THAT WORLD NO LONGER EXISTS AND THIS FORM OF EDUCATION IS REDUNDANT TO BEGIN WITH. THIS SYSTEM OF 19TH CENTURY EDUCATION IS STILL HIGHLY FOCUSED ON REWARDING COMPLIANCE, CONFORMITY AND RESPECT FOR AUTHORITY ABOVE ANYTHING ELSE. AFTER THE CHILD IS PROGRAMMED TO THINK THIS WAY THEY KEEP THIS MENTALITY THROUGHOUT THEIR LIVES AND INTO THEIR COFFINS. THIS OBVIOUSLY DOESN'T WORK.

A BEST SOLUTION AND PROPOSITION BY WET ANUS CORPORATION/SECT

FERTILITY RATES ARE DROPPING, WHICH IS VERY GOOD. BUT WE NEED THEM LOWER, WE RECOMMEND ANYONE WILLING TO GO THROUGH A VASECTOMY OR STERILIZATION TO DO IT BEFORE AN ACCIDENT HAPPENS. OUR BIGGEST PROTEST CAN ONLY BE TO STOP PRODUCING WORKERS FOR THEM.

A BETTER LIFE IN OUR EYES: END YOUR BLOODLINE, TAKE BACK CONTROL OF YOUR LIFE, DO WHAT YOU WANT UNTIL YOU DIE. DO NOT JUDGE OTHERS BECAUSE YOU DONT KNOW WHAT FOR THEM IS RATIONAL. HELP OTHERS IN NEED, LEARN NOT TO EXPECT ANYTHING IN RETURN.

Tetanus Nunchuck MK1 Schematics and building guide:

Ever feel paranoid on a spot, maybe you don't have a spotter with you (lol loner loser) or you are paranoid and a bit of schizophrenic by nature, thats all fine and good.

Most 'professional' graffiti 'artists' tend to use some kind of pointy object for 'safety' in case of a confrontation. But if this method escalates it can easily land you a manslaughter charge which can be a bit of a headache!

But don't worry because we at WetAnusCorp have created an easily home-built open source defense weapon.

Historically, this self-defense weapon was originally created by american crack heads but has been adapted by the alcoholics and speedfreaks in Europe over shared internet knowledge.

Schematics are as follow.

What you need?

Padlock (the heavier, the more blunt damage obviously, but hard to carry)

Medium to smaller sized chain

A container with a mixture of 50% water and 50% trashiest and cheapest market sea salt (very important its shitty and cheap, better rust)

Part1: INSTALATION GUIDE:

As its noted up in the picture, the most important part of the current method is to have the padlock on the chosen end of the chain (IMPORTANT) lock it up, make sure it doesn't open at least twice, at least.

The keys should be discarded never to be seen again by either cremating them at 900 to 940 celsius OR HIGHER IF POSSIBLE! Other methods include throwing them in the sea tied to something heavy, though this method is highly unrecommended if you are being followed or gangstalked.

rusting guide, unimportant but fun historical context:

Installation

2. STIR THE MIXTURE WELL AND THRUOUTLY. Those who don't mix it well enough will end up feeling sorry they didnt mix it better at the end of this guide. Mix it twice, thrice or fource if you are able to. Make sure for it to not catch fire by applying a slow and steady rythm to your mixing.

You can use metal for mixing but beware it may rust, we don't know since we tested with a piece of wood, and that piece of wood doesn't have seem to have rusted. So probably wood rusts a different way to hardware chains and padlocks. But that is topic for another guide which may follow if we figure it out.

3. Dip the contraption inside of the shitty cheap seasalt mix. Watch out for any signs of life threatning danger such as a sharp pain thru the heart, numbing of left arm, loss of vision in one or both eyes, erectyle dysfunction and so much more. You can feel it by the vibe you just have to believe in yourself and you surely can do it. We all here at Wet Anus Corp believe in you. Except a few board members but they aren't liked around office so don't take it to heart

Fermentation

The third part of this guide is technically a complete mistery to us, because most of our employes are mid-school or high-school dropout we lack the chemical knowledge to understand what is happening at this point.

From our understanding (and general understanding about fermentation in general) not much is known about it, ancient tribes held beliefs that fermentation happens mostly by the current position of the starts and/or pure luck.

It may take from 1 or 2 days to up to 10 years for this process to finish
So be ready to have a place to put it on the side to do its thing, there is medium chance of explosion at this stage but as long as its not around your sleeping space you should be good.

Fermentation is an evil spirit after all. We must respect it out of fear.

AFTER THE TETANUS NUNCHUCK MK1 WETANUSCORPcopyright PROTOTYPE IS DONE!

(you should be known its done if it looks like its rusted. If you dont know how that looks you can try searching online for 'images of rusted metal' that should get you a pretty good idea of what you are looking for.

Finished Look

Final result should look like this, it has as its known a 'rustic look', it MUST smell like rust, and it may have a little bit of a smell of tetanus already (this is a great sign)

IMPORTANT UPDATE!!!! 26.5.2026
Tetanus Nunchuck MK1.1 beta has been released. upgrades include not giving yourself tetanus while using it by tying a wooden object to the end of the **TNmk1** example photo:

Now you might be thinking of tactical ways of using this. This is to be used in last resort situations where instead, if you were a toy and brought a knife and it came to down to a multiple stabwounds likely resulting in death on the scene, this could land you a hefty penalty of 2 month to a lifetime in prision (Depends on your local laws, if you insist on using knifes or pointy objects instead of this humane design we strongly advise you get familiar with your local penalty for first degree murder)

Now you may think to yourself. How do i use this thing, its very simple and we will get troughout the process in great detail and with some situational stimulated scenarios

Basic boring situation:

Most of the confrontations while practicing graffiti are some old cunts who can be debated and dominated in the marketplace of ideas forcing them to retreat, in case of physical confrontation these types of people in theory appear to be very fragile due to their old age, and a lot of them need to be learnt a lesson.
So if the elderly person is your height or shorter, we suggest a quick punch on the chin with your elbow

Now that we have gone over the basic situations that may happen where a **Tetanus Nunchuck MK1**is not even needed. Though you should know this all already by now since its a daily part of the graffiti lifestyle. People do not understand what we do because they are brainwashed by the microsignals and additives added to the food and water we consume, in next page we will go over a slightly more difficul situation.

THE MOST DANGEROUS POSSIBLE SITUATION WHERE TETANUS NUNCHUCK MK1 SHINES THE MOST!

Imagine you are in an allyway, walls, you are doing tags, but they're kinda toy. A large bald man (3m tall) without a shirt on yells at you 'Hey man! Stop right there!!!' He starts running towards you.
You obviously panic unless you have consumed drugs before the session as its often recommended. You look around, the walls are too high to climb, the floor is too low to climb. You should start running in opposite direction of aggressor.

First step: DIPLOMACY
Try calming the person down using advanced speech methods, quickly explaining to them that you are actually not a vandal, but an artist.

Most of the time this backfires, due to this type's of individuals upbringing and general vibe, he may not respect art. And he may even view it as 'gay' in his eyes, which depending on his homophobic spectrum might enrage this person even more.

Second Step: WARNING! (Only one)

If the individua is still trying to catch you and you have distance. You have a couple of seconds of preparation time to access the 'handle' part of the **Tetanus Nunchuck** MK1

At this point you must engage in mind games.

We recommend short and confidently said sentences. Examples:

'Do you fear ***death***?'

'What's your favorite football team?'
'When did you last get a tetanus shot'

'Sorry man I'm tourist from Europe its normal there'

If you tell them something like this it will throw them off guard just enough for you to pull out your **Tetanus Nunchuck MK1** and prepare for an attack.

At this point having a moment for yourself to prepare mentally for this is also recommended if you have time. You can choose your God of choice for forgiveness for what you are about to do, or your God of choice might have already commanded you to go through with this which makes it your spiritual mission regardless.

PHYSICS!!!

Use this kinetic formula of force needed if you are trying to avoid intentionally murdering this individual (Recommended highly! Wet Anus Corp is not to be blamed for any fatal accidents using our prototype)

$$F\Delta t=m\Delta v$$

Most common and tested method:

We can't afford a graphics team and our main editor is on sick leave so we have used a stock photo instead of our original recognizable company look. Obviously replace the wooden bat in the picture with your newly created **Tetanus Nunchuck MK1.** Use the kinetic force written in page 6 to avoid a fatal accident. (If the individual does not go down, you should reload your **Tetanus Nunchuck MK1** a second time and try to hit a different side of their head, since hitting the same spot twice might be a little sadistic. But here at Wet Anus Corp we do not judge EVER!

This method should have two effects at first. The person should be knocked out (perfect).

Secondly check for signs of a wound, if there is a visiable opening of a wound that is exactly what you're looking for since this means tetanus should be firmly planted in ther bloodstream.

What we suggest as the most professional and mature thing to do is:

1. Check bloodflow. If its flowing out too hard flee the scene cause you probably killed the cunt

2. If the bloodflow is not that bad and the victim seems to be unconcious but in a otherwise stable possition. You should return to the spot and finish the piece/throwie/tag. This will give you single or double street cred depending where you live and what gang you are affiliated with.

3. Before leaving the spot THROUGHTLY remove all of your personal belongings. That means caps, cans, any bags (even plastic bags), cigarette butts.

4. You should obviously by standard precidure by this point be wearing the only confirmed clothing combination designed by professionals: Ski Mask, High visibility vest, Working or latex gloves (VERY IMPORTANT) no fingerprint no needless stress.

5. Check the victims pockets. It would be a waste leaving possible money or cigarettes on the victim for no reason. Most of the time if you don't rob the bastard some other nolife bum will. So sieze the chance. After robbing the victim escape the scene as soon as possible!!!!!!!

Recovery after using **Tetanus Nunchuck MK1**

Using this device can be quite damaging for the users mental health, especially if used frequently.

Blunt weapons are a very sadistic form of pain bringing and also giving someone tetanus might have you feeling guilty about it afterwards. It's quite important that you follow all of the classic graffiti protocol and you will not get caught after the fact.

HIGH VISIBILITY VEST
SKI MASK OR ANY DOMESTIC TERRORISM LOOKING MASK
BLACK CLOTHES
GLOVES TO PROTECT FINGERPRINTS AND GETTING YOUR SOFT HANDS SPRAYED BY AEROSOL

So if you have committed this crime using this only official confirmed work clothes, you are good to go even if caught on camera, just be creative on the way back to your safe house. If you're not a bum you probably have spare clothes somewhere and should change and smoke a cigarette at that point.

Convince yourself they deserved it:

They probably did, you are a rational and mentally and emotionally stable person, someone forcing you to display such acts of violence must have deserved it. Check the media on updates in case of their death. If the victim dies. You may feel tempted to blame yourself on it but don't. Look at it this way, we are all born to die, one way or another. And we cannot chose the way that will happen, but it is innevitable. This hypothetical victims life choices have all been leading to this moment and you are only an angel of death who got asigned by a higher power to annihilate them.

It has been proven that human beings have been dying as long as they have been getting born.

His life was merely a drop in a clog and what happened was supposed to happen.

Do not beat yourself over it, but if you want to be sure you can keep a low head for a few days. Maybe only do trashcan tags but not overwork yourself.

If you're still having a hard time dealing with the situation after more than three days then you my friend are a pussy and need to grow up. Iti s recommended to pick up an unhealthy habbit you dropped in the past to help you toughen up. For example if you stopped using narcotics, start using them again, narcotics are very important for inspiration with artists anyways and you should be doing some form of them anyways. If you stopped drinking, start drinking a lot. This usually helps get you back your confidence and overinflate your ego for the next bombing spree.

If caught by the authorities, deny all knowledge of Wet Anus Corporation or any of our inventions or literature. We are half company and half a religious sect with a knowledge in hexing and cursing. If you are caught, its your own fault not this company. Pay the fine + continue bombing

If caught by the authorities and charged with murder. Again deny knowledge of this company. Gaslight the police, claim innocence, demand a lawyer, make a scene, get the media involved and start an online foundraiser.

This manual should get you all to date with our first prototype Tetanus Nunchuck MK1

It is very basic concept but it is mark 1 of the series and we are improving the design a bit for the new version by researching and taking inspiration from ancient roman spiked maces.

Manual upgrades for MK1: Hitting a person that is infected with Hepatitis or any other sexually transmitted disease is a big upgrade to the effectiveness of this tool. Its recommended to never clean the **Tetanus Nunchuck MK1** for best results.

WET ANUS SEKTA is in no association with any government of the world, and we go as far as to not recognize ANY country on this earth, borders dont exist and the governments and police are here to keep us on the capitalist threadmill. Most of us (some of you we recognized as reptillians!) in the graffiti scene tend to live a free life. Jobless on some form of minimal social income or unreliable odd-jobs.

We are free, we scare the system so they use state violence to put us back in line. They will try to break us down but we will paint every bit of concrete they have built where once forests and mountains used to be. You have taken our youths with false promises, your economy is rigged, People are waking up.

The police and their fascist civilian bodyguard team will be dealt with at one point in the street directly. Having this tool might come handy then.

We are sad to see the world burn, but they are burning it themselves. Climate change is past the point of return and the future is very dark.

3 years of genocide in Palestine

WE HAVE BEEN GIVEN A UNIQUE CHANCE OF EXISTENCE ON THIS EARTH AND WE HAVE POLLUTED IT AND BEEN NOTHING BUT VICIOUS TO OUR OWN KIN AND OTHER ANIMALS LIVING WITH US, UNFORTUNATELY THE MOST MORAL THING WE CAN DO AT THIS POINT IS TO INTENTIONALLY GO EXTINCT. WHICH MIGHT HAPPEN REGARDLESS.

W Ⓐ SZine Vol.2

TODAY WE STEP DOWN FROM THE INTENSITY OF THE FIRST VOLUME. FOR NOW, IF NEED ARISE WE SHALL RESPOND EMOTIONALLY IN A CORRECT MANNER. TODAYS SUBJECT AT THIS POINT OF WRITING IS

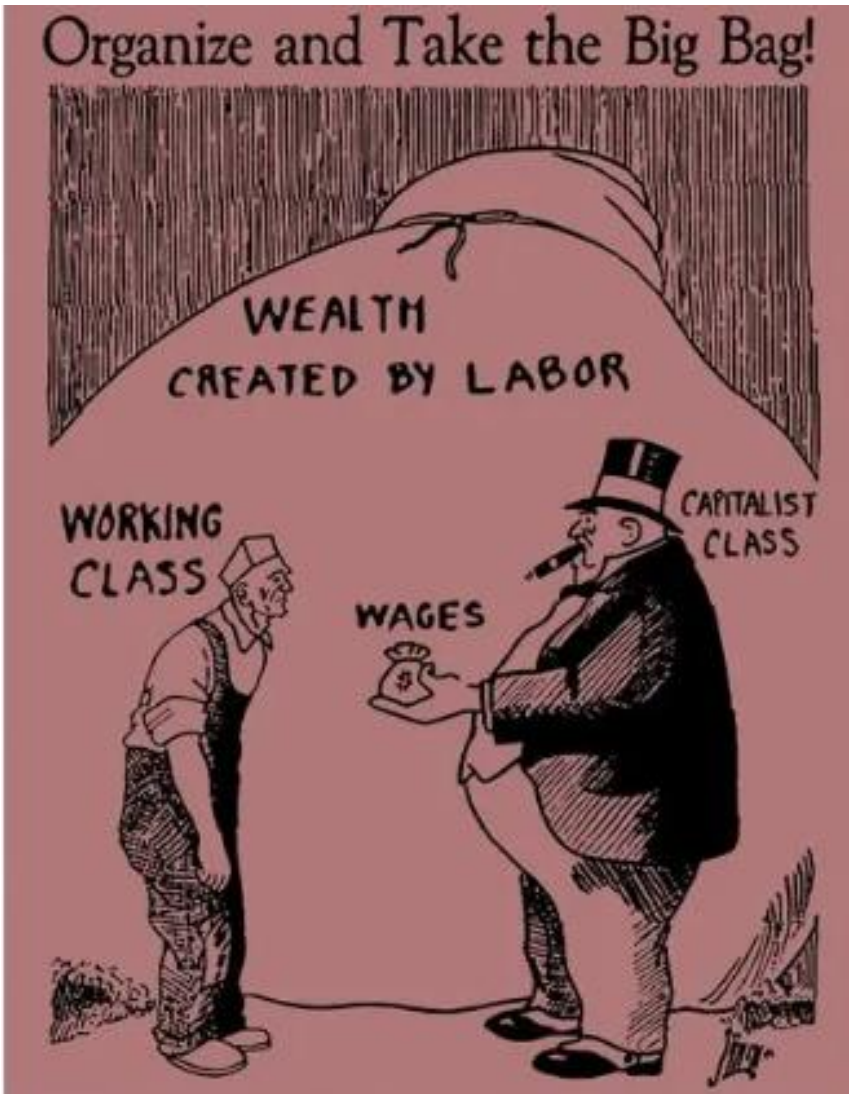
THEFT. BUT THIS ZINE DOES NOT CONFORM TO STICKING TO ONE SUBJECT.

WHAT IS THEFT? THEFT IN SIMPLE TERMS ALLEDGEDLY IS (INTENTIONALLY) STEALING A LIGHTER FROM A FRIEND, OR STEALING A COUPLE DOZEN APPLES FROM YOUR NEIGHBOURS TREES, WHICH IS CORRECT. THAT IS THEFT BY DEFINITION. WHAT ABOUT STEALING FROM A BIG CHAIN SUPERMARKET? THATS ALSO THEFT BUT IT HAS A SPECIAL NAME "SHOPLIFTING". THAT IS THEFT AS WELL THATS CORRECT. BUT ITS SOME SPECIAL SORT OF THEFT WITH A SPECIAL WORD FOR IT. OUR QUESTION IN THIS ZINE IS GONNA BE: CAN THEFT BE MORAL? WE SHOULD ALSO TALK ABOUT HOW CORPORATIONS HOARD WEALTH AND RESOURCES AND TREAT THEIR WORKERS.

Shopliftin': What's so wrong about it?

Not much, it's theft allegedly but alleged by who? The fat cunts losing a lot of of money because of it. The fat fucking cunts that earn money by stealing and hoarding anyways, underpaying and overworking their workers? The fat bastard cunts that have a giant storage of edible food that is then thrown away after expire date because then it's not profitable? Give us a break. We spit and shit on those fat cunts and our main

belief is shoplifting is a great form of protest against them and a great form of migraine for them as well.



THE FIVE FINGER DISCOUNT GAME:
This game was invented by Wet Anus Sekta standard cult procedures and doesn't represent the shoplifting scene in general.
Due to it's freakishly long name we will from now on refer to the game as **TFFDG.**

The rule of the game is to enter the supermarket, and *borrow* more than you buy.

For extreme players of TFFDG a very stupid and unrealistic examples may be:

```
 -going inside of the store, packing a backpack full of food and
alcohol, and then buying a chewing gum on the way out without
getting caught.
```

That last part is the tricky part. How not to get caught? Well you should know this by now, dumb fuck. But for the kiddies getting radicalized reading our scripts luckily we have a couple true and tested methods that work 72% of time. Recognize you will get caught eventually and that is not a problem. If you are young then you have a story to brag about and maybe a mild financial penalty, there are ways around it though sometimes.

Security guards (Police Academy Cop Wannabes)

Read the security guard body language. If he is obviously freshly out of prison, seems to be coked out of his mind and is looking for trouble then comply **and refuse to go to the backroom** with them. These motherfuckers can and most likely will brutalize you if you allow them to take you to their security backroom **(which sometimes do not have security cameras installed)**.
Show all stolen items in front of other witnesess (supermarket workers and the customers) act nice and allow yourself to be a bit of a bitch and apologize, try to de-escalate and ask to leave.

Avoid that supermarker for a while cause that motherfucker may have a beef with you at this point and it's not worth it.

IMPORTANT NOTES: Depending where you live, if a security guard takes away your freedom of movement (meaning he isn't allowing you to leave freely out of the supermarket) but hasn't found anything confiscated on you or has video footage of it. THEY HAVE NO LEGAL RIGHT TO TAKE AWAY YOUR FREEDOM OF MOVEMENT. Usually the laws in these situations are if a security guard 'Takes away your freedom of movement' they are in their shitty contracts obligated to call the police immediately, they have no legal right to do it. So if you stole but the goods haven't been found then you are practically good to go.

Other security guard body language are, generally wimpy. Don't be a bitch and don't comply with them at all you can tell these idiots to fuck off or just ignore them and leave.

these fucking bastards probably beat their wives as well. We consider them equal to cops.

LETS TALK GEAR:

Not much you need depends on the technique you plan on using, the backpack method is very ballsy and we do not recommend it unless you are an active methamphetamine user. At that point you are invincible and you can do anything and we believe in you buddy.

But in this section we will talk the true WET ANUS SEKTA approved method. Watcha need? A belt, but not just any belt. This belt was accidentally designed to be the best thieving tool known to our sect but also other sects around the globe. They ***MAY*** vary. But we will provide a generic photo of it that you could find in a super posh overpopulated mall easily.

After extensive searching they appear **NOT** to vary they also have a specific name: D belt ring. These motherfuckers are a go to to any recreational shoplifter. We do not know the price of them since we never bought them. But they may be very cheap, its good investment anyways.

OR! Even better. you may start your practice here. You could enter the populated consumerist trash of the store with pants that fit you well enough without a belt, you can mindgame by looking around like you're interested in random shit, pick up some shirt and then pick up the D-belt (big up D-beat!). If you're nervous or shaky pick up some pants or something also. But the true mindgame is you have to understand and re-program yourself that you are doing anything wrong. Because you are stealing from

a thieving capitalist anyways. The mindgame is that you are calm the entire time, on the security cameras you should appear chill as a motherfucker.
Go to the changing room, take a long ass time there. there are no cameras there anyways. At this point put on the belt. It's trash and shouldn't have the beeper tag on it, but if it has it... There are ways around it but it's a subject for another volume maybe. Anyways just fucking leave the shirt or pants or whatever decoy you took and put it in the pile they have for 'tried on' clothes, if some workers are there its a good idea to insult the decoys or just try to joke with them to avoid acting suspicious. After that just fuckin' leave the place lol.

Congrats you just five finger discounted your first thing. It's usually pretty adrenaline heavy couple times, but if you keep playing TFFDG you should be pretty much used to shoplifting like a normal person. A large amount of people shoplift regularly but not enough in the opinion of the WET ANUS SEKTA collective and worldwide think-thank.

We will shortly go over a few tips 'n' tricks for actually five fingering a store. General shoplifting scene unwritten rules are supermarkets are a fair hit, local markets owned by regular working people shouldn't be stolen from. You may search online for owners of your local supermarket chain and read about them, newspaper articles or maybe they even have a wikipedia or something. Then develop a grudge exclusively for that supermarker owner. This grudge should be bordering on bloodlust, such rage that you may start having feelings of lynching this person. But stop at that limit. Go steal in their shitty supermarket instead.

Shopliftin' 4 Dummies:

AT THIS POINT WE TURN CAPS LOCK ON. WE ARE NOW ESTABLISHING A SERIOUS TONE. SADLY THIS METHOD IN PRAXIS USUALLY ONLY WORKS FOR MEN, THA LADIES SHOULD PRACTICE BAG METHODS.

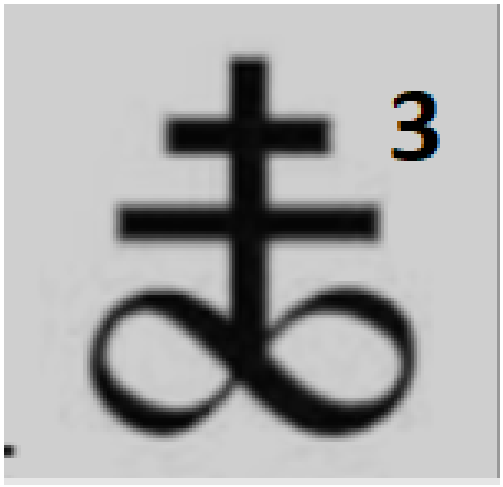
THIS IS A SERIOUS REVOLUTIONARY TOOL AND A SERIOUS SPORT. THE WORLDWIDE SHOPLIFTING UNION (WSU) IS UNAFFILIATED WITH US, BUT WE STILL FOLLOW THE SAME RULES AS THEM OF NOT ATTACKING LOCALLY OWNED STORES. WHERE THE FUCK DO YOU START WITH SHOPLIFTING!?
THAT MAY BE WHAT YOU ARE THINKING TO YOURSELF RIGHT NOW, BUT FIRST STEP IS ALWAYS FINDING A FAVORITE SUPERMARKET TO STEAL FROM. WE LEAVE IN THIS SHITTY WORLD WHERE EVENTUALLY YOU ARE FORCED TO GO TO A SUPERMARKET SINCE THEY HOARD MOST OF THE FOOD LOCALLY.
ALWAYS SCOUT FOR CAMERAS, THIS SHOULD BE IN YOUR ROUTINE ANYWAYS IF YOU ENJOY SO-CALLED 'SCHIZOPOSTING'. ALWAYS SCOUT FOR CAMERAS, EVEN OUTSIDE SUPERMARKETS. TAKE NOTES, SOME SECURITY CAMERAS MAY BE VERY STUPIDLY PLACED AND ALLOW YOU TO ENTER A 'BLIND SPOT' WHERE YOU CANT BE SEEN ON THE CAMERA SYSTEM. THIS IS IMPORTANT BECAUSE WITHOUT DIRECT VIDEO FOOTAGE OF YOU STEALING THEY HAVE NOTHING AGAINST YOU! FUCK THEM!

NEXT STEP PLAN A SHOPLIFT TRIP TO THAT SUPERMARKET, HAVE A BIT OF MONEY AND EQUIP YOUR D-BELT, YOU SHOULD HAVE A BAGGY SHIRT YOU FEEL COMFORTABLE IN, THE PANTS SHOULD BE MORE BAGGY TO CONFISCATE AS MUCH AS POSSIBLE ALSO. IF YOU'RE A SMOKER BRING CIGS FOR THE NERVES.
GO TO THE STORE, NOT EVEN BRINGING A BAG WITH YOURSELF IS A GOOD IDEA CAUSE THEN YOU WILL BE EVEN LESS SUSPICIOUS.
GRAB A CART, OR THOSE SHITTY PLASTIC LITTLE CARTS. IMOPRTANT, HARD TO USE THIS TECHNIQUE WITHOUT SOME SORT OF CART.
GASLIGHT YOURSELF INTO ACTING LIKE A NORMAL CUSTOMER, SEARCH FOR SOME FRUITS OR VEGETABLES BE THERE A WHILE, CHECK OUT IF ANY SECURITY GUARDS ARE PATROLLING AROUND. IF THEY'RE NOT THEY ARE PROBABLY IN THE CAMERA ROOM, WHICH IS SICK SINCE YOU KNOW A BLINDSPOT. PUT SOME CHEAP FRUITS OR VEGS LIKE BANANAS IN THE CART, AFTERWARDS, PROCEED TO THE ITEMS YOU ARE ATTEMPTING TO STEAL.

YOU MAY HAVE A LIST OR YOU CAN METH-FREESTYLE IT ALL DEPENDS ON YOUR MOOD AND THE CURRENT SITUATION YOU'RE IN. PUT THE ITEMS YOU PLAN TO YOINK BELLOW THE BANANA IN THIS SPECIFIC EXAMPLE.
ON THE WAY TO THE BLIND SPOT YOU SHOULD PROBABLY PICK UP ONE MORE VERY CHEAP THING IF YOU WANT TO AVOID LOOKING SUSPICIOUS, IF YOU DON'T GIVE A FUCK GO DIRECTLY TO THE BLINDSPOT, KNEEL DOWN AS IF YOU'RE SEARCHING FOR SOMETHING IN YOUR CART AND WITH ONE HAND LIFT YOUR SHIRT AND WITH OTHER STICK THE ITEMS IN YOUR PANTS, ALL THE WAY, IN THE UNDERPANDS. LET IT TOUCH THE SKIN.
ON YOUR WAY UP FROM KNEELING TIGHTEN UP YOUR D-BELT AS MUCH AS YOU CAN. THIS SHOULD HOLD THE ITEMS IN PLACE. WHILE STANDING UP IF YOU CAN SEE YOUR ITEMS STICKING THRU THE SHIRT YOU CAN ALWAYS ARCH YOUR BACK A BIT AND PRETEND TO HAVE SCOULIOSIS, YOU CAN EVEN ENTER THE STORE LIKE THAT IF YOU'RE COMPLETELY FREAKY. ITS EVEN A GOOD IDEA TO ENTER THE SUPERMARKET WITH AN ARCHED BACK AND SCRATCHING YOUR GROIN, AND SCRATCH YOUR GROIN MULTIPLE TIMES WHILE IN THE STORE TO ESTABLISH THATS A NORMAL THING YOU DO AND IT WONT BE WEIRD TO ANYONE WHEN YOU START PUTTING STUFF DOWN YOUR PANTS.
ANYWAYS PAY FOR THE COUPLE CHEAP ITEMS YOU BOUGHT AND LEAVE THE STORE. THAT IS THE USUAL EXPERIENCE. IT REALLY ALL COMES DOWN TO HOW AGITATED THE SECURITY GUARD IS THAT DAY.

MISSION SUCCESS
CUNT!

ne



WE HAVE HAD ENOUGH DAY IN DAY OUT THEY EXPECT US TO WORK FOR 8 HOURS SHARP, MOST OF THE TIME MENIAL USELESS LABOUR THAT ARE USELESS BUT THEY NEED TO MAKE USE OF YOU CAUSE YOU'RE ON A CONTRACT. YOU EFFECTIVELY SOLD YOUR BODY FOR 8 HOURS A DAY MODAY THRU SATURDAY.

WHY IS THIS BAD? BECAUSE ITS REALLY FUCKIN' BAD. THIS ONLY DOESN'T SOUND BAD TO A PRIVATE BUSINESS OWNER. BECAUSE THEY RENT YOUR DUMB ASS FOR 8 HOURS A DAY, THEY ARE MOST OF THE TIME ISOLATED FROM THE WORKPLACE AND DON'T KNOW AND DON'T CARE HOW TO PLACE WORKS AT ALL OR IF IT DOES. ITS YOUR DUTY WRITTEN ON THE BLOODPACT YOU SIGNED CALLED 'THE CONTRACT' YOUR ONLY REASON FOR EXISTANCE IS TO MAKE THEM AS MUCH MONEY AS POSSIBLE WHILE THEY FIGURE OUT NEW AND CREATIVE WAYS TO PAY YOU LESS AND MAKE YOU WORK MORE.

THAT IS THE ONLY TYPE OF PERSON WHO THE IDEA OF WORKING MONDAY THRU SATURDAY, 8 HOURS A DAY IN MOST OF THE TIME DANGEROUS AND POOR WORKING CONDITIONS.

Why is this happening?

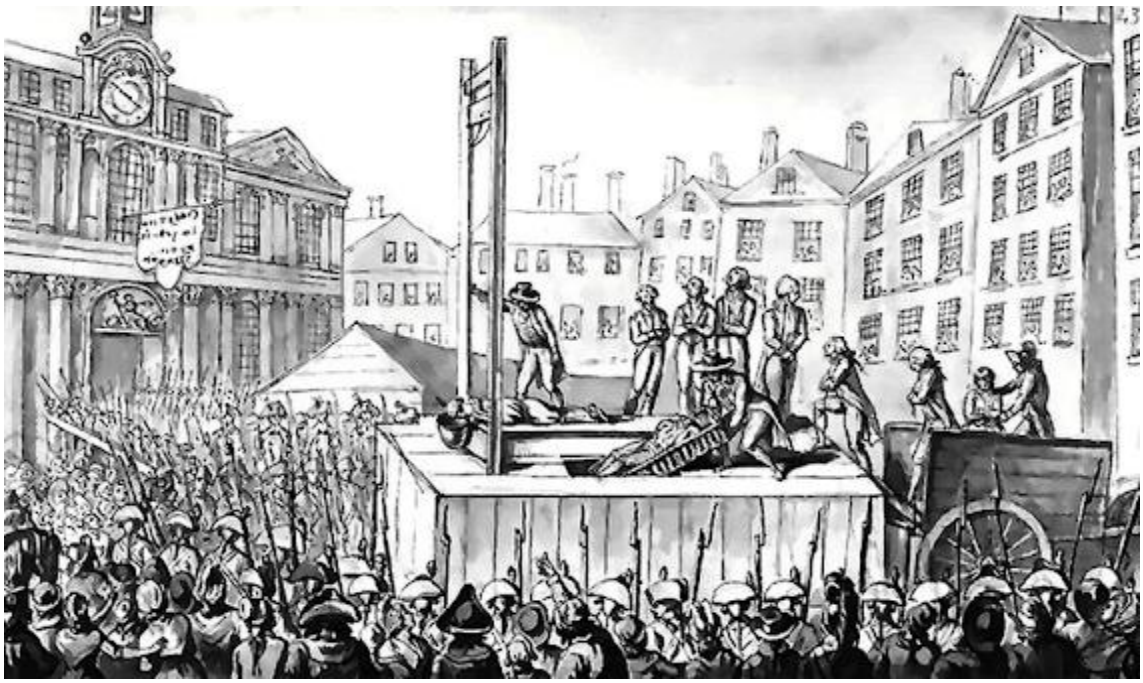
Capitalists trough modern history have been a pushing force in fascism. Since fascism had its bloom in the early 20th century. Capitalists have been investing in Fascist Italy and Nazi Germany from the beginning until the end. They invest money in parties with these ideologies because they promise to keep them safe, fascism is very effective in crushing worker unions and they are effective protection for the capitalist class. Fascism and Capitalism are in a sexual relationship that works because they benefit off each other. Capitalists make money out of thin air which Fascists use to terrorize their local

communities and rage war on neighboring countries.
This is best seen today happening in self proclaimed-United States of America, but fuck that place we are waiting for it to burn itself down, which it should hopefully soon.
It's taking its sweet ass time. But the rest of the world is suffering for it.

OBVIOUS SOLUTIONS:

Here at Wet Anus Society we cannot formally endorse public lynching (ONLY BECAUSE WE ARE HOSTED ON A GOOGLE SERVER)

BUT we cannot deny it is the most historically accurate solution. Lynching has been an effective form of getting rid of many whacky historical characters, some examples:



OFF WITH THEIR HEADS

Now for fun part of the fanzine :)

HOW TO MAKE YOUR OWN INK AT HOME:
Truth is making ink at home for graffitti purpose is so easy that there is not much reason to write a whole section on it

WHY DO WE DO THIS? IS IT JUVENILE, IS IT IMMATURE? IS IT ART? IS IT VANDALISM? WHO THE FUCK CARES BRUH, DEPENDS WHO YOU ASK. BUT THE ONLY TRUTH IS IT'S WORLDWIDE AND IT'S NOT GOING TO DISAPPEAR NO MATTER HOW MUCH LOCAL LAW ENFORCEMENT (**BASTARDS, PIGS, ETC...**) AND LOCAL GOVERNMENT (**BASTARDS, CRETINS, ETS...**) WANT TO ENFORCE AND GET RID OF GRAFFITTI.

IT'S HERE TO STAY AND IT'S PART OF ANY URBAN UNDERGROUND CULTURE.

GRAFFITTI PANIC!!! WHAT TO DO ABOUT IT???

DO MORE GRAFFITTI! FUCK YOUR LOCAL WALLS UP!

STAY CONSISTENT WITH GRAFFITTI REMOVAL COMPANIES. THEY GIVE US FRESH WALLS ANYWAYS BEEF WITH THEM IS USELESS, THEY ARE STILL WORKING CLASS AFTER ALL (Oi!)

credit: ESNORE (from so-called 'France')

We are fucking nothing in the grand scope of the system, the protests do little, the

strikes most of the time do very little, but it's small victories regardless.

Inking up public places is a very small form of rebellion we can contribute with. It's a good morale booster for those who matter and are already radicalized.

-ACAB-

Good spots to hit:

These types of surfaces are best for putting paint over, most of the time the idiots will draw the swastika in the wrong way anyways and its an ugly looking swastika regardless. Pour paint over that shit, write whatever. Draw something, write your nickname. Fucking Draw a Black cube over it or whatever, Connect it into windows (Overpowered tactic)

-ANTISTYLE MANIFESTO-

WE HAVE HAD FUCKING ENOUGH!? OF WHAT THIS TIME? GOD DAMN EVERY FUCKING DAY WE HAVE

ENOUGH OF MORE THINGS. WHAT THE FUCK IS THE PROBLEM TODAY???

get to the fucking point, we get it... but bear with us.

WE HAVE HAD ENOUGH OF ELITISM IN THE GRAFFITTI SCENE, WE HERE AT WET ANUS SOCIETY DENY ALL FORM OF LETTER STRUCTURE. GRAFFITTI IS A FREE FORM, MANY PEOPLE ARE STARTING OUT. WE SHOULD BE EXPERIMENTING NEW STYLES, BUBBLES AND WILDSTYLE CAN ONLY GET SO FAR. ANTI-STYLE IS BRINGING SOMETHING NEW TO THE TABLE. IT ALSO HAS POLITICAL ROOTS IN MOST CASES. ENOUGH CALLING PEOPLE TOYS! WE'RE ALL TOYS TO THE RULING CLASS. LET'S SPRAY TOGETHER AGAINST THEM. Unity.

-Padlock Wrenching-

Ever found yourself with a padlock you didn't have a key to? If you haven't you should by now. You can find them in many places. Hell you may have locked yourself

out and this may help in a serious life or death situation. Wet Anus Society will be sure to give you a blessing or curse depending on your general level of humanity and empathy brother/sister.

What is Padlock Wrenching?

You may be asking yourself what Padlock Wrenching even is, this is a phenomen that exists that makes padlocks basically worthless, this method works even on higher quality padlocks. It relies on torque energy.

The bad news is it only works on these types of padlocks:

Which means that these bastards are safe

(FOR NOW)

Padlock Wrenching history and facts:

Padlock Wrenching was invented by some drunked up motherfucker as long as padlocks and wrenches existed simultaneously. Flex-head wrenches were invented some time around 1860's (According to Wikipedia) and laminated padlocks have been invented around 1920's (According to historyofkeys.com they seem legit)

So this invention was made by some drunk fool pretty recently. We don't know the individual so we will proclaim 'MrGear' on YouTube the first drunk motherfucker that made this tactic popular again... His video is the oldest it seems when searching for the method, but it has trash music and the video sucks. We will share a better and more informative YOUTUBE video of it. If you are avoiding using YouTube (understandable) We will also put a textual instruction underneath the link...

TRIGGER WARNING YOUTUBE LINK: Good Explanation

Step by step:
The wrenches should be bigger size, in our case 20-24 are good enough, but for some padlocks you may need bigger...

1.First wrench is inserted as instructed in the photo

2.Second wrench should be placed at a 90-degree angle with the first one

3. Push hard with your fist. (IF IT DOESN'T BREAK, TRY ROTATING THE LOCATION OF THE FIRST WRENCH)

4.You're in baby.

If you live in a urban area and are a bit of a bum in general. You may have come to this overpowered free food tactic a long time ago on your own. But we have to take in account that sadly people are still breeding so there are always new kids that need this knowledge. For you that haven't gotten to this tactic yet this will create many new opportunities for your brain to get creative.

This tactic isn't vegan since it relies mostly on raiding Fast Food chains, which mostly cook food with meat. The only vegan option on this menu will be french fries (which could get you surprisingly full if you get lucky and find a lot of them)

Later we will go over dumpster-diving in general. So lets begin.

FAST FOOD RAIDS

Due to our encrypted practice on our communal sect computers, we are forbidden from entering many websites. So we will not go into history in this segment since we cant research. We go straight to business.

Fast Food Raiding is essentially a praxis of entering heavily into a fast food during working hours, the more crowded it is the better since there will be more leftovers. Most of the time your typical bullshit big fast food chain in your city or town will use one of these trays-

These trays will be found in 'tray-bins'

Shit, if they are this full as in this image, your next objective is to raid them.

It's usually best to pick some form of carton container from one of the trays, and stuff all edible things you find while rummaging through each tray individually into the big carton container.

Most of the time the workers there will not care since they are underpayed. If some worker wants to be a hero feel free to get hostile or argumentative with them, they are also underpayed and usually realize its not worth it pretty quick.

Next step? Bam you go out and eat your prize. 'Boun Apetite' or however those 'so-called French' colonists say.

Still Hungry? Bad raid?

Do not worry your hungry little head, you live in an urban enviorment. Go to another local big-brand fast food chain and raid it there. Repeat until full!

This also works for smaller fast food places.

But they usually have small bins where people drop everything inside together, so the food is usually soggy from all the soda and shit in that bin. But hey if you are hungry you do not ask sometimes. ***But it's still edible food.***

DUMPSTER DIVING

Here at Wet Anus Society we love nothing more than dumpster-diving. Other than painting on city and private property, there is nothing more we love. Dumpster-diving is a noble sport and a beneficial for many hobbies you might have. Since you can find materials for basically anything you need done in the trash. Once you start diving, you will start realizing how wasteful we are as a species.

Dumpster diving in most 'so-called European' cities dives down to hitting Supermarket back-side bins. In some cities these are locked, sometimes they are behind a fence, which you can easily jump over of course.

Some places may have security so it's your call if you want to run or confront them.

Your philosophy is this is your bin and you have a right to anything in it. They are throwing it away anyways aren't they?

Why dumpster-diving behind Supermarkets is looked down upon or even illegal in some places?

The supermarket owners obviously figured out a long time ago that if we realize that they are throwing out obviously edible food and drinks daily in mass quantity, people will obviously not go into their store and will just take out of the bin the perfectly fresh food they throw away.
This is public property and anyone should have access to it, since it's ''Trash'' anyways...

They may even fear 'legal action'. For example if someone gets sick from something they ate that they found behind their supermarket they *may* persue legal action.

But let's be real... Anyone dumpster-diving isn't really a letigious person suing anyone for ridiculous reasons like the upper class show to behave.

The first explanation seems to be more reasonable and realistic.

WE AT WET ANUS SOCIETY RECOMMEND FOR MAXIMUM CRITICAL DAMAGE TO THE COMPANY TO:

1-DUMPSTER-DIVE BEHIND A SUPERMARKET STORE

2-GO INSIDE AFTERWARDS AND SHOPLIFT THERE (check out Shoplifting 4 Dummies)

3-LATER AT NIGHT TAG UP THE PLACE WITH PAINT.

THAT IS A TRIPLE SHOT TO THE BALLS OF THE SUPERMARKET CEO. MAY EVERY ONE OF THEM ROT IN HELL!!!!

''American'' Supermarket chains monopoly:

Dumpster-Diving in general city bins

Very good documentary on this made by The Dumpster Gods from 'so-called Australia'

Link on our Internet Archive page:

The Dumpster Gods (2017) ***edit:no audio,we fucked up!!! search on youtube sorry...***

Inside of general city bins is the best treasure! This is shuffle-mode, randomizer. From cooking pasta, canned food, tools, clothing, and we even heard reports of people finding laptops and mobile phones in working condiditions. It really is worth it

Dumpster-divers usually lean with their chests to the dumpster and pulling out any valuable loot they can reach, the better and more dangerous solution is to just jump feet first into the entire dumpster yourself. This is traditional dumpster-diving by the books.

Dont feel ashamed to make a scene and throw the garbage around yourself to demonstrate a point, though this is extremely optional.

CLOTHING 'DONATION' BINS

Some cities also have bins specifically for clothing. These are presented as charity donation, but in reality these clothes most of the time get stuck in the private company taking care of it and mold before being thrown away. Feel free to take from these bins also, the donation is for you/us.

Most of the time the gypsies should have pried it open and it's easy to rummage through, but if its still locked. You might have to be that gypsy that pries it open personally.

If there is a padlock on it, refer to WASZINE VOL.4 VANDALISM OR ART, THE ART OF PADLOCK WRENCHING.

Sometimes these bins have little square holes somewhere in them where you can easily push your hand inside and take the clothes out one at a time, if not then go back to general city trash bins in looks for clothing, plenty of it there.
